

# 3-7 St Annes St, Ryde – 30.2 kW Rooftop PV

## GENERAL INFORMATION

Site Address: 3-7, St Annes St, Ryde NSW

Type: Strata

Daily Energy Usage: 700 kWh

## PROJECT DETAILS

- A multi-level residential complex aligned with the growth in popular Ryde district
- Project is carried out parallel with construction phase of the complex development

## OUR SOLUTION

- We installed a 30.2 kW PV system consisting of 96 x Longi Solar 315W panels.
- The proposed Solar PV system is expected produce more than 110 kWh per day. That is equal to 16% of assumed daily usage.

## RESULTS

Estimated  
Annual Savings

**\$12,070**

Annual CO<sub>2</sub>e  
Reduction  
Equivalent

**44.6 Tons**

Payback

**2.2 Years**

Annual Electricity  
Consumption  
Reduction

**40,170 kWh**
