

### Site address

North Rocks, 2151

### Site type

Domestic New Development

## Site

### Description

- New development with the solar system commissioning taking place after waterproofing has been completed.
- Large residence with an electrical load consisting of a swimming pool

### Our solution

- Installed a 10 kW Solar PV system, consisting of 33 x 290W poly-crystalline modules and a top quality SolarEdge inverter.
- Tilt mounting to maximise energy yield and payback.
- Comprehensive Solar Edge System Monitoring.

### Results

**\$ \$3,150**  
estimated annual savings

**⚡ 12,684 kWh**  
Annual Electricity Consumption Reduction

**♻️ 10.7 Tons**  
Annual CO2e Reduction Equivalent

**🕒 3.5 Years**  
Payback
